

**1. Print this guide. WARNING! It is on a 1:1 scale. Check the accuracy with a ruler.**

**2. Check the thread pitch of your axis by putting it on sheet, but you can also measure the distance between the threads/coils.**

**3. Check the maximum length of the axle. Measure only the length of the shaft with thread.**

PLACE YOUR AXLE HERE

..... Ø12 MM

EXTRAWHEEL ADAPTERS [MM]	YOUR AXLE LENGTH [MM]	AND THREAD PITCH [MM]
12×1	135–142	150–165
12×1	142–148	164–172
12×1.5	142–148	170–180
12×1.75	142–148	170–180
12×1.75	157+	180–200
12×1.75	190–197	217–229
